

PF37 Window and Surface

During construction, decorating, refurbishment on glass, plastic, steel, ceramics and wood our surface protection film will keep off dirt and debris until the final unveiling for a perfect presentation. A durable low tack film that removes cleanly leaving no residue. Used extensively by professional tradesmen. Standard roll lengths 600mm x 100m.

PF34HD Carpet Protection

A high quality solvent based self-adhesive protection film for the fastest and best possible protection of floors and floor covers when building, removals, renovating and painting. Tear resistance and easy to use. The solvent adhesive guarantee's that the film adheres perfectly, does not shift and can be easily repositioned and quickly removed. Ideal for carpet and floor protection when hosting domestic events such as parties and BBQ's, protecting against mud, drink spillages and dropped food, doing away with expensive carpet cleaning machines. Also good for use at corporate entertainment events. Standard roll lengths 600mm x 100m

PF40 Hard Floor Protection

A medium level acrylic adhesive for the protection of hard floor surfaces against dust, dirt and paint. PF40 is easy to use and removes easily leaving no residue making it ideal for protection for all hard floor surfaces. Available in Red and blue, Standard roll lengths 600mm x 100m.
